

ART CLAY™ SILVER Basic Instruction Guide

Message Ring

Completed piece

The words are engraved in the side of the ring with a needle look chic and very stylish. The ring can also be used as a charm by threading a chain or cord. You can finish the surface differently, attaching a synthetic stone etc.

<Material>

A-053	Art Clay Silver 650/1200 Clay Type 10g	1pc
F-142	Needle	1pc

<Step by Step Guide>

1) Measure your ring size with a ring size scale.

2) Draw a line with a pencil 3 sizes (Japanese ring size) larger than the actual size needed on a wooden mandrel.

3) Wrap a memo pad sheet on the mandrel centered on the required size.

4) Roll out the clay into a rope and wrap around the mandrel.

5) Roll out the ring on the mandrel to shape equally and make the ring 3mm thick. Dry.

6) Remove the ring from the mandrel, remove the memo pad from the ring, and then sand the sides to flatten with a medium fine file. Smooth the ring with a red sponge sanding pad.

7) Engrave words with a needle on the side of the ring and fire. Polish with a stainless brush, finish with some liver of sulphur, polish again and finish.
