

Aida Japan would like to suggest to you two great new gift ideas using Art Clay Silver for Valentine's Day!

After wide survey from AIDA's customers in Japan, the Hand-made pure silver spoon for ice cream was voted the No.1 Art Clay hand-made gift for Valentine's Day by Art Clay users. The spoon has a stylish design which helps you scoop "rock hard" frozen ice cream easily because Silver spoon melts it so quickly with your hand warms as you eat. As you may know, heat transmission of Silver is highest in any other metal. The spoon and frozen ice cream would be great gift, but that means hand delivery by you - a special treat! Or, you can make the pair of spoons with your parent, partner, child and/ or friend etc which would make a very memorable day!

Create the spoon shape the same as you did with the clay you played with as a child using but using silver clay. Art Clay Silver becomes over 99.9% of silver after firing. You can engrave names and messages on the piece before firing. After firing, you can make a finish of the piece by polishing with a stainless steel brush.

Also, a silver charm for mobile phone would be a unique additional gift to differentiate from other gifts. You can also combine a few lucky charms and make your own original strap gift.

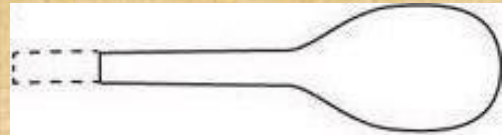

A Pair of Silver Spoons

Completed piece

<Material>

A-053	Art Clay Silver 650 Clay Type 10g	1pc
-------	--------------------------------------	-----

<Actual size spoon design pattern>

<Step by Step Guide>

1) Make a big ball on one end of the clay, and roll out into a thin rope for a handle on the other end on some cooking sheet. Work while adding water little by little so as not to dry.

2) Model the spoon shape using the actual size's design pattern above. And, start pressing the ball with your finger to create the bowl shape.

3) Place the bowl part on the back of the spoon to curve well.

4) Open a hole to thread a string with a toothpick etc.

5) When making the other piece, make the handle longer, then roll up the handle and fix the shape with a straw. Dry completely with a hair dryer etc.

6) Smooth the entire surface of both pieces with a red sponge sanding pad (#320-#600). Sand lightly. Then fire in an exclusive kiln or on a gas stove etc.

7) Polish with a stainless steel brush to finish.

Lucky Charm strap

Completed piece

<Material>

F-218,220-226	ACS Exclusive Petit Mold with 2 flat screw eyes	1pc
-	Art Clay Silver 650 Clay Type 5g	1pc

<Step by Step Guide>

1) Bend up the flat screw eye that came with the petit mold.

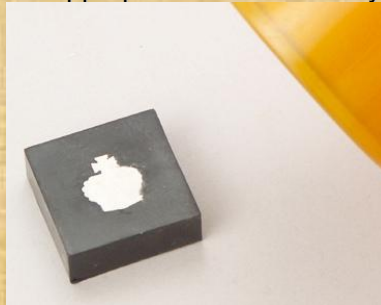

2) Make a ball with an appropriate amount of clay.

3) Press the clay into the mold.

4) Insert the flat screw eye so as to attach to a mobile phone strap for.

5) Dry completely with hot air from a hair dryer for at least 15 minutes.

6) Make sure the clay dries completely. And twist the mold to take off. Smooth the edges with a red sponge sanding pad (#320-#600). Fire in an exclusive kiln or gas stove etc.

7) Polish with a stainless steel brush.

8) Attach with a strap and finish.
