

Leaf Pendant

Level: Basic

Completed piece

<Materials>

Art Clay Silver Paste Type	Some
Round jump ring medium	1pc
Any chain	1pc
Any veined leaf	1pc

<TOOLS>

Cooking sheet, tooth pick, paint brush, medium fine file, stainless steel brush, burnisher

<Step by Step Guide>

1) Make a hole with the toothpick for the round jump ring.

2) Mix a small amount of water to Paste Type to make a soft paste. Paint some on the back and dry completely. Do not paint on thin fragile stem or the hole.

3) Paint thickly in the second layer and dry completely again.

4) Repeat Step 3 to make more than 1mm thickness like in the image. After drying completely, peel off the leaf and fire the piece at 800C/1472F for 5 minutes in an electric kiln.

5) After cooling down, if you find any burrs, trim down lightly with a medium fine file.

6) Polish the entire piece with a stainless steel brush and burnish it with a burnisher. Thread the round jump ring and set it with some flat pliers. Finally, thread a chain through the round jump ring. Finished!
